

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (currently amended) A test device comprising a plate containing a multiplicity of wells wherein the wells have a volume within the range of 0.1-20 microliter, said test device being grafted with ~~hydroxymethylmethacrylate~~ hydroxyethylmethacrylate.

2. (currently amended) [A] The test device according to claim 1 wherein the wells have a volume within the range of 0.1-5 microliter.

3. (currently amended) [A] The test device according to claim 1 wherein the ratio between the depth of the wells and the diameter thereof is less than 1:1.

4. (currently amended) [A] The test device according to claim 3, wherein said ratio is less than 2:3.

5. (currently amended) [A] The test device according to claim 1 wherein the diameter of the wells is 1.0-4.0 mm.

6. (currently amended) [A] The test device according to claim 5, wherein said diameter is 1.0-2.0 mm.

7. (currently amended) [A] The test device according to claim 1 wherein the plate contains 5-20 wells per square centimeter.

8. (currently amended) [A] The test device according to claim 1, wherein the plate contains 10-15 wells per square centimeter.

9. (currently amended) A test device comprising a plate containing a multiplicity of wells within the wells have a volume within the range of 0.1-20 microliter, said device comprising ~~a library of~~ peptide constructs each comprising a first peptide segment linked via a non-peptide bond to a second segment.

10. (currently amended) [A] The test device according to claim 9 wherein said peptide constructs each comprise at least 18 amino acids.

11. (currently amended) [A] The test device according to claim 10 wherein said peptide constructs each comprise from 25 to 35 amino acids.

12-14. (cancelled)
